Format

The regatta is divided into 10 divisions to help you plan your day. Doubling and trebling up is encouraged. However, crews including coxes and equipment including blades cannot row or be used twice in the same division or used in adjacent divisions. We will automatically pick up competitor doubling, but it is your responsibility to identify any equipment sharing on BROE.

Events may be banded depending on the number of entries and/or the range of points and may be moved to another division if necessary. We may also move crews between categories and apply Master's handicaps where appropriate. Events will be structured around trying to create a semi-final and final.

Documents

Competition documents including the draw, competitors' instructions, circulation plan and safety plan will be published on the regatta web pages and emailed to participating clubs.
